

JASONESQUINALDO

Creative Graphic Designer

Summary

Experienced graphic design professional, motivated with an entrepreneurial mindset, hard-working father of three, strong work ethic, and proven ability to deliver compelling results.

Graphic Designer

Self-employed

Jan 2021 - Present

Offering the following freelance graphic design services while seeking full-time employment:

- Branding, logo design, presentation graphics, popup banners, booth graphics, ads, posters, flyers, technical charts, infographics, proposal elements, video editing, and web banners.

Pack Out Associate (Part-time)

The Home Depot

Feb 2021 - Present

- I work evenings unloading freight, packing out product, up-stocking, assisting customers, and bay-directed pack-downs to obtain benefits and aid in paying bills.

Senior Designer, Senior Graphic Designer

Imprivata

May 2015 - Apr 2020 (5 years)

Imprivata is recognized as 6th Largest Cybersecurity Technology Firms in Massachusetts | Modern Healthcare, Best Places to Work in Healthcare 2020, 2019 | The Boston Globe's Top Places to Work 2017

- Worked from our Tampa office, as a remote employee, and worked on-site in Lexington, Massachusetts for over five years.
- My focus was supporting our marketing department and our company stakeholders, by creating compelling

designs, and art directing internal co-ops, junior designers, and contractors to fulfill requests.

- Worked directly with project owners to best understand their needs and expectations, I routinely collaborated with department teams, and offered my expertise and recommendations, and established timelines for project delivery.
- Utilizing Adobe Creative Suite, I produced digital and print materials, including brochures, banner campaigns, graphics, and diagrams for presentations, display booth graphics, motion graphics, and office signage.
- A five-year member of the company's "Dream Team" the kickoff meeting event team. I was a project manager leading a charity drive for a local non-profit organization at our Tampa office.

Lead Graphic Designer

HT Systems, LLC

Feb 2011 - Apr 2015 (4 years 3 months)

HT Systems was the first company to successfully implement a large-scale biometric patient identification management system in the United States and received massive news coverage across the nation. | In May 2015, HT Systems was acquired by Imprivata for \$19.1 million.

- Before full-time employment, I worked with the company founders and designed the corporate identity, sales materials, and developed the website for HT Systems.
- As the only creative designer, I provided front-end graphics and assisted in the development of our biometric identification solutions, hospital self-help kiosk solutions, off-site enrollment apps. My design role was split 50% marketing and 50% assisting development.
- I developed and maintained the company websites, using HTML5, CSS, Javascript, Bootstrap, and WordPress, and managed SEO and Google Analytics. I developed a customer location map that used GPS locations to illustrate the wide-growth and national usage of our product.

- I produced graphics in a traditional ad agency setting, the projects ranged from corporate identity, print design, ads, to billboard ads.
- I designed looping video presentations and developed early website design.

Work References

"I had the great pleasure of working with Jason for over 4 years. He is exceptional at designing and extremely dedicated to delivering outstanding results and successfully managing any project. When we had odd, difficult requests or needed to make very tight deadlines at our European branch – no problem, Jason handled it. Despite the different time zones. He's highly skilled at

understanding the needs of different markets and localizing branding where necessary - whether it was for our American, European or Middle Eastern markets, the end product always met expectations.”

Bjorn van den Berg

Senior Marketing Programs Specialist EMEA at Imprivata

August 19, 2020, worked with Bjorn in different groups

“I had the pleasure of working with Jason for over 2 years at Imprivata. During that time, we collaborated on several projects where his design expertise was needed. His work was always timely, innovative and on brand. Given the small team Jason was on, I was always impressed with his ability to juggle multiple projects at once and maintain such a positive attitude. Jason would be an asset to any team and in addition to having my highest recommendation from a professional standpoint, he is also one of the most genuine and kind people you could hope to work with.”

Sara Sousa

Executive Briefings Manager at Forcepoint

August 3, 2020, worked with Sara in the same group

“I have worked closely with Jason since 2009 at HT Systems, LLC. - PatientSecure and Imprivata. Jason is a very talented graphic designer and web developer. We had an incredible website at PatientSecure that was very innovative, especially in terms of its heavy emphasis on video. In addition to his technical talents, Jason has a great work ethic and works well both independently as well as part of a team. His turnaround time on requests from Sales and Marketing was fantastic. Just as importantly, Jason is a good guy, easy to work with, and always ready to help the team in any way possible. I would highly recommend Jason to any company looking for his skillset and I would be happy to speak directly with anyone as a professional and personal reference.”

Carl Bertrams

SVP, Client Relations at Strongline

August 1, 2020, worked with Carl in the same group

Thank you for reviewing my resume, I hope to hear from you.

Best regards,
Jason Esquinaldo
